

## Coastal Zone Act

# Congressman Blasts Drilling Proposal

Washington, D.C. October 9, 1974 -- Congressman Glenn M. Anderson (D-Los Angeles) charged recently that the Federal Government's plan to sell Pacific and Atlantic Ocean bottom tracts for offshore oil development by 1975 violates the spirit and intent of the Coastal Zone Management Act of 1972 (PL 92-583), the Federal law designed to protect the Nation's seashores and beaches.

The South Bay legislator cited specifically the failure of the Interior Department to comply with a part of the Act which requires Federal Agencies conducting operations, which directly affect a State's coastal zone, to conduct those activities in a manner consistent with the State's coastal zone management program.

"This decision to proceed with the sales indicates that

the Interior Department plans to go ahead with the drilling despite any objections the coastal states may raise as a result of coastal zone management studies currently being conducted," Congressman Anderson said.

At this time, most of the coastal states' studies have just begun, and will not be completed until after 1975 when the proposed lease sales

will have been made.

"No decision regarding oil leases should be handed down without consideration of regional interests and priorities, and these, so far, remain largely undefined," he said.

"For the sake of environmentally and economically acceptable development of our offshore oil resources, the Secretary of

the Interior should apply Federal programs in a manner consistent with state programs," the former California Lt. Governor said.

"The absence of this kind of communication highlights the need for legislation that will provide the coastal states with more assurance of being considered seriously when they object to Federal plans for their coastal waters,"

Anderson continued.

Anderson cited his current bill before the Oceanography Subcommittee of the Merchant Marine and Fisheries Committee as part of his effort to provide for more state control over Federal leasing policies. The bill, HR 16411, would amend the Coastal Zone Management Act to provide for state approval prior to oil drilling operations seaward of

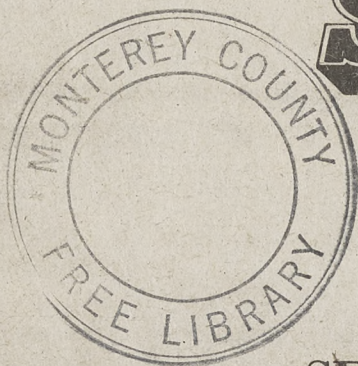

a state-established marine or estuarine sanctuary.

California presently has nine such sanctuaries in which oil drilling is banned, and these sanctuaries protect about one-fourth of the coastal waters off California from Federal leasing activity.

"While I recognize the need to tap our offshore oil resources, I believe we should

do so cautiously, with respect for states' coastal priorities, and not at the expense of our beaches and our wildlife," Anderson states.

In 1972 Congressman Anderson amended the House version of the Coastal Zone Management Act to provide protection for such state-established coastal sanctuaries, but the Amendment was dropped in Conference Committee.

## Red Cross In Need Of Blood

Blood supplies are rapidly dwindling on the Monterey Peninsula according to reliable American Red Cross-Community Hospital Blood Bank Program spokespersons.

Serious demands are constantly being made on the life-sustaining blood available at the Community Hospital for major surgery, injuries, hemophiliacs, infections, transfusions of newborns, plasma protein antibody problems, transfusions of patients with chronic anemias, and in the transfusion of patients with complex blood compatibility or rare blood needs. Of vital importance, is the fact that the Monterey Peninsula Community Hospital is the only hospital between Santa Barbara and Palo Alto with a Cancer Treatment Center.

A vigorous, productive number of blood donors are needed right now on the Peninsula to supply the Red Cross-Community Hospital with the life giving factor. Potential sources of blood are people. Blood cannot be

manufactured, it comes from only one source, willing donors. Blood is a living tissue, a natural resource, which like gas, oil and other natural resources is more than ever in demand.

On Thursday, October 31, and Friday and Saturday, November 1 and 2 information centers will be found at centrally located areas around the peninsula where questions pertaining to blood donations will be answered and donors may register. Blood can be given with very little effort, it can recycle life and help to maintain it. Potential donors are being urged to stop at the Red Cross-Community Hospital information Centers and find out how easy it is to become a donor. 1 unit of blood will give others another chance. The life you save may be your own!

All persons, of both sexes, 18 through 65 are acceptable, minimum weight 110 lbs. For further information telephone your local American Red Cross or the Community Hospital.

## Renewal Retreats For Women Only

"Renewal Retreats", for women only, is a new concept for the women who need to relax. It has been developed by the YWCA of the Monterey Peninsula in response to women feeling walled in by family, jobs and-or responsibilities. These women are encouraged to make arrangements with husbands, neighbors, baby-sitters and join in this weekend of freedom and relaxation. Working women, apartment-bound and jobweary, will find an anxiety free environment.

The retreat will be held in a hilltop villa on the Big Sur Coast above Julia Pfeiffer State Beach, Saturday and Sunday, October 26 and 27. The setting offers a modern hilltop villa of weathered wood and glass, with sun decks, fireplaces, miles of hiking, and magnificent ocean views. Huge tubs for hot baths are a special feature.

The registration fee of \$18, includes 2 healthy but hearty meals, a beautiful location and opportunities to pursue creative, physical and conversational activities. These include crafts, massage, body movement, and rap sessions on problem-solving and interpersonal communications. Resource persons in all those areas will be available. Women need to bring their bedrolls and a brown bag lunch for Saturday. They are also encouraged to bring

musical instruments and ongoing craft projects.

The Retreat will leave YWCA Headquarters on Highway 1 in Carmel at 9:45 am. Car pools will be formed to conserve gas. Free parking is available for cars not used. The caravan will arrive in Big Sur approximately 30 minutes later. The caravan will leave Big Sur, Sunday at 3:00.

Anyone interested in signing up for the YWCA's "Renewal Retreat" at Big Sur, should call the YWCA at 625-1745 for complete details prior to the Thursday, October 24 deadline.

## New Food Stamp Changes Proposed

The U. S. Department of Agriculture (USDA) has proposed amendments to food stamp program regulations which provide permanent procedures for retroactively restoring a household's benefits wrongfully denied, delayed or terminated through administrative error. Since January 1974, interim procedures have been in effect.

In the proposed regulations USDA asks comments on three methods for restoring lost benefits. All of the methods involve offsetting the household's purchase

requirement with the lost benefit entitlement.

The proposed regulations differ from the interim procedures in these areas:

-- Recipients can receive lost benefits without going through the fair hearing process if the client, food stamp caseworker, and supervisor agree.

-- Lost benefits will be restored only for the 12 months preceding the discovery of the error.

-- Recipients' lost benefits will be reduced by the amount of any outstanding claims against them.

Other proposed regulations were announced which:

-- require a standard format for the authorization to purchase card.

-- make the administering state agencies liable when their failure to cooperate with USDA has resulted in an adverse court decision.

The proposed regulations are scheduled for publication in the Federal Register on Monday, September 30. Written comments may be mailed or delivered to Royal Shipp, Acting Director, Food Stamp Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250. Comments must be received by October 30 and will be open to public inspection.

## Junior League Annual Sale

The Junior League of Monterey County has announced its annual Next-to-New Sale will be held November 2 and 3 at the Monterey County Fairgrounds. The merchandise will be in the Exhibition Hall and the Agriculture and Horticulture buildings. Hours of the sale will be: Saturday 9:30 a.m. to 4:00 p.m. and on Sunday all items will be half price from 11:00 a.m. to 3:00 p.m. The sale is open to the public with no admission charge.

Both new and used merchandise will be featured with departments in jewelry, children's apparel, men's and women's clothing, household appliances, books, furniture, records and stereo tapes, sports equipment and toys. A boutique and a linen department also will be open. The goods are collected by League members in a year long effort which relies heavily on support from cooperating merchants, friends of the League and local craftsmen. All the proceeds from the sale are returned to the community through the Junior League's financial support of projects in the fields of art, education and welfare.

Some of the current projects which are receiving support are: Children's Theatre, the Youth Science Center, the Infant Care Center of Seaside,

Meals on Wheels in Salinas, Planned Parenthood of Monterey County, the Funding Information Bureau, VIA and the Community Career Resource Center. A few of the past projects have been the Youth Concerts and Reality House.

## Guest Editorial

THE CALIFORNIA ECONOMY

Like the rest of the United States, California currently is undergoing a period of rapid inflation, combined with a general economic slowdown.

The basic problems can be solved only by sound long-term programs.

However, we must alleviate many of the most critical short-term effects, and, to do so, the federal and state governments must work closely together.

### Long-Term Planning

We are paying the price today for the "guns and butter" economics that prevailed during the 1960's.

The only way we can bring inflation under control now is to hold the line on federal and state budgets. At the same time, we must increase productivity by encouraging a healthy climate for business and job development.

The present economic climate works special hardships on some of our people, particularly the aged, the poor, and those on fixed incomes. Certain sectors of our economy also suffer uniquely, such as construction and agriculture.

Construction. Employment in California's construction industry in July, 1974, was 27 percent below that of July, 1973. Housing starts continue to decline as interest rates rise. This problem, while national in scope, is aggravated in California by the state's constitutional limit on interest rates. This 10 percent limit cannot be immediately lifted. In the meantime, action must be taken to help the housing industry and people in the market for homes.

-- On the state level, we need a housing finance agency to provide guarantees for lower interest home loans for low and moderate income families.

-- The federal government should preempt regulation of interest rates on FHA and VA financed housing.

-- Consideration should also be given to encouraging an additional flow of money to savings and loan institutions and banks by removing the regulations on, or increasing the amount of, interest on savings that may be paid by such institutions and banks.

Agriculture. California's number one industry is agriculture. Food Prices are an important part of the economic picture. In California, agriculture is threatened by two problems in particular.

1. The threat of labor violence at harvest time must be eliminated through state or federal legislation. Farm workers should be brought under the National Labor Relations Act. If this cannot be promptly accomplished, California must enact a law allowing farm workers to determine representation by secret ballots, but prohibiting secondary boycotts and recognition strikes. Unemployment insurance should be extended to farm workers.

2. Last spring, the Federal Power Commission issued ruling curtailing the supply of natural gas in California. This decision must be reversed. It threatens the production of anhydrous ammonia, a critical element of many fertilizers. The result may be crop shortages and still higher prices of food.

Special Relief. Many Californians are particularly hard hit by inflation. Immediate study should be given to measures that may relieve the burden on those hardest hit. The following should be considered, among others:

1. Defer until death or sale of property for those homeowners over 65 any increases in property tax caused by the impact of inflation on assessed values.

2. Provide tax exemptions for interest on a portion of family savings. Our low and middle income citizens typically have the bulk of their net worth invested in their homes and-or savings accounts. Limited tax exemptions for savings accounts would ease the impact of inflation on these people and encourage further savings which would also assist the home loan industry.

3. Revise federal and state income tax rate schedules to prevent automatic upgrading of taxpayers into higher brackets simple because of cost of living earnings increases.

4. Adopt automatic cost of living increases in benefit payments and related measures for the needy under federal and state programs such as unemployment insurance, workmen's compensation, widow's benefits, senior citizen's tax relief and homeowner's property tax exemptions.

5. Finally, federal and state funds should be allocated wherever possible to provide public jobs in locales such as minority communities which have been hardest hit by unemployment.

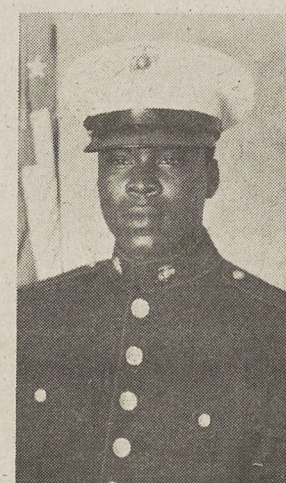

In addition to specific measures, both the President and the Governor can use their offices to lead an attack on inflation. To complement the President's call for an economic summit conference, I have renewed my proposals for the formation of a governor's council of economic advisors to offer long-range planning and short-term steps to alleviate and other economic problems.

# Family Service Building Drive

The Family Service Agency's building fund drive recently netted the agency \$8,000, which enabled a down payment to be made on its newly constructed home at 1030 Case Street, Monterey. The staff and Board of Directors of the agency rolled up their sleeves to do the painting of the building this past week in order to defray some of the building costs. Monterey Peninsula Volunteer Services (M.P.V.S.), which has been a very heavy Family Service supporter, has also pledged the proceeds of its November 16th Monterey Fairgrounds Annual Sale to the building fund.

The move, scheduled to take place Friday, October 11th

# CBS Announces Scholarship

CBS Inc. has announced that it is offering a new full-tuition scholarship, plus full salary and benefits, to a minority employee to attend the Columbia University Graduate School of Business in New York. The program leads to a Master of Business Administration degree after four consecutive terms, beginning in January 1975.

The announcement was made by Sheldon M. Wool, Vice President, Development, who said that "the Columbia program is designed to accomplish the two-fold task of giving the graduate a liberal business education and, at the same time, preparing him or her for a career." Mr. Wool noted that the scholarship is part of the planned expansion of CBS educational opportunities for minority groups. It follows by several months the establishment of scholarships for CBS women employees for graduate study at Simmons College. CBS also participates in the advanced management Sloan Fellowships at Massachusetts Institute of Technology and in shorter graduate-level programs at Stanford, Columbia and Harvard.

The CBS scholarship to the Columbia Business School will be open to minority employees with either bachelor's degrees or other preparation or experience deemed equivalent by the School's Committee on Admissions. Selection of the scholarship recipient will be made by the School's Scholarship Committee.

# THE NEW PRICE FOR CANADIAN NATURAL GAS IS THE REASON WE HAVE ASKED FOR HIGHER GAS RATES

## Canada to Increase Price of Natural Gas

OTTAWA—The Canadian Government has announced an increase in the price of natural gas exported to the United States, effective Jan. 1. The price paid by American utility companies would rise to \$1 per 1,000 cubic feet, up from the present average price of 60 cents according to yesterday's announcement.

permission to raise our gas rates by approximately \$151 million a year, starting in January.

Every penny of it is to offset the higher cost of Canadian gas. It is not a request for an increase in PG&E's rate of return (profit).

The typical residential gas bill would

be raised 15%, or about 6¢ a day averaged over the year.

We regret having to ask for this increase. Higher utility bills, we know, are a serious burden to our customers.

We are continuing to work hard to be efficient and hold down rates as much as possible. But we cannot make up cost increases of this size no matter how efficient we are.

These are times of mounting energy costs. We urge you again to conserve energy. This will help you to keep your PG&E bill down.

Helpful information and booklets on saving gas (and electricity) are available to you at all PG&E offices.

## 'Facing Crisis'

"We are facing a crisis of sorts in California," Governor Ronald Reagan said today, "a crisis in immunization."

"Californians, in one sense, have been too healthy for their own good over the past decade," the Governor said. "Because we haven't had outbreaks of polio and other diseases such as we had in the '40's and '50's, we have become complacent about getting our families immunized."

"As a result, California has dropped to 39th among the 50 states in the percentage of its children immunized against diseases for which there is ready protection."

"With our mobile population, these low immunization levels could eventually lead to epidemics. "To stop this threat, the State Department of Health, the federal government, private physicians and volunteers are conducting Immunization Action Month in California during September. The main emphasis will be on childhood diseases such as polio, measles, rubella (German measles), diphtheria, whooping cough and tetanus."

"Although we want all Californians to receive proper immunization, we are especially anxious that preschool and school age children are protected."

"I urge all Californians to join Immunization Action," the Governor said, "not only during September but in the years to come. Remember, a little extra effort expended now may prevent years of heartbreak for you and your family."

## St. Anthony to Serve 11,000,000th Free Meal

San Francisco — St. Anthony Dining Room will serve its 11,000,000th free meal to the

### SWINGER

The Zulu, Simon Sabela, to be seen in this winter in Allied Artists' release of a GOLD, stands over six feet tall and weighs more than 200 pounds. He once played trombone in a swing band.

needy recently during the Feast of St. Francis and the beginning of the dining room's 25th year.

The dining room, open to everyone Monday through Saturday, serves a big, balanced meal to an average of 1,700 persons a day. For many, it is the only meal they receive that day.

Drawing its entire support

from thousands of individual donors and volunteer workers, the dining room receives no help from city, state or federal funds. It receives nothing from the United Bay Area Crusade. And, although run by the Franciscan Fathers of St. Boniface Church, it receives no aid from Catholic Charities, the Archdiocese of San Francisco or the Fran-

ciscan Order.

Most donors live in the Bay Area. None of them is ever asked to continue giving, and few of them have ever met Father Alfred Boeddeker, O.F.M., the dining room's founder and executive director, or Father Floyd Lotito, O.F.M., his deputy executive director.

"Something moves these

people to help St. Anthony's month after month, year after year," says Father Alfred. "Perhaps, it's something that says, 'Just do it once more.'"

Annual food requirements are immense: 100,000 pounds of meat; 100,000 pounds of potatoes; 60,000 pounds of dried beans and peas; 20,000 pounds of rice; 20,000 pounds of produce; 8,000 pounds of

sugar; 9,000 pounds of coffee; 48,000 loaves of bread; 10,000 pounds of salt; 3,000 gallons of milk; and 10,000 pounds of dessert.

The food crunch makes it harder for the dining room to meet its requirements. "It also works a horrible hardship upon those with pension and Social Security checks which don't last 'til the end of the

month," says Father Alfred. "Our monthly attendance figures give a barometer of the times," says Father Floyd.

"At the first of the month, when checks arrive, attendance may be 1200 persons. "By the end of the month, when a person's resources are exhausted, attendance will soar to 2,200 persons," he said.

## Ross Proposes Seaside Social Element Plan

City Councilman Stephen E. Ross proposed the formation of a Social Element to the Seaside General Plan to "bring into focus the social responsibilities of our City Government to the people or human beings of Seaside," at City Council meeting last

Thursday.

The plan will make it possible for the needs and concerns of the individual citizen to be addressed, because, according to Ross, it would establish mechanism by which resolution to human problems may be sought.

"There are several steps that should be taken to accomplish this," Councilman Ross stated. "They include, but not limited to, the following:

"A clear expression by the Council of a WILL to accomplish this.

"Provide the direction or leadership to accomplish this, and Provide RESOURCES to accomplish the mission."

Mr. Ross strongly suggested the setting up of a Citizen's Advisory Committee.

Mayor B.J. Dolan agreed to the need of such an addition to the General Plan, but pointed out an even more pressing need for a committee to formulate a Community Development Application, citing the element of time which will expire within two months.

Other Councilmen agreed that there were needs for both, and Councilman Oscar Lawson suggested the combination of the two.

## Knights Trounce Dolphins

Black Knights make it four wins and no losses with Sunday's defeat over the Ft. Ord Dolphins, 18-12. With the Dolphins holding the Black Knights to a scoreless first half and going on the scoreboard first, the Dolphins came back into the game to see a more confident Black Knight team hit the field. Whatever Coach Tommy Cross said during half time, it worked, the Black Knights came charging back during the 3rd quarter.

CALVIN GARNETT and ERNEST BONNER both making touchdowns, not only

placing the Black Knights on the scoreboard but putting them ahead. Fourth quarter action kept everyone on their feet with Black Knight, RAY NOBLE, recovering a fumble on the 42 yard line and DONALD BURNEY going over for a touchdown. Dolphins, however, turned right around and made a touchdown closing the gap 18-12. With a Black Knight fumble, and only minutes left in the game the Dolphins took over the ball in Black Knight territory with only the Black Knight Defense between them and a possible winning touchdown. Despite repeated at-

tempts to break through the Black Knight Defense, the Dolphins couldn't move the ball and on an attempted pass, VINCENT ROBINSON (DC), who always comes from nowhere, intercepted, and wiped out the Dolphins chances to score.

With 4 wins and 0 losses Coach's TOMMY CROSS, CHUCK CLARK and JP JONES, deserve a pat on the back, and without exception every Black Knight deserves a big congratulation, for a well played game. FOUR MORE GAMES TO GO.

If you have any questions please contact me at my working number 373-3047-3048, ask for Mrs. Jones, after 4:30. My home number is 394-0905.

## Survey Shows Less Pollution

Vehicles in use on California's streets and highways are emitting less pollution with each successive model year, an eight-year survey by the State Air Resources Board has confirmed.

A random sample of on-the-road vehicles showed that, compared with uncontrolled pre-1966 cars, 1974 models emit 83 percent less hydrocarbons, 79 percent less carbon monoxide, and 58 percent less oxides of nitrogen.

The findings, contained in a staff report submitted to the Board at its October 9 meeting, were compiled from exhaust emissions tests run on approximately 21,000 vehicles since December, 1965. The survey was conducted on privately-owned 1966 through 1974 models which were voluntarily submitted for testing at mobile test stations operated by the Board. Nearly all of the test vehicles were equipped with factory-installed emissions control systems, and some had additional State-required smog devices.

Many 1966-70 model vehicles tested were equipped with oxides of nitrogen (NOx) control devices which have been required on change of ownership since early last year. Installation since has become mandatory in six Southern California counties, with installation time keyed to final license plate digit. 1966-70 model cars equipped with the NOx device averaged a 41 percent reduction in oxides of nitrogen when adjusted to manufacturer's specifications. Cars with the NOx device also showed an average 25 percent reduction in hydrocarbons and a 13 percent reduction in carbon monoxide as compared with non-retrofitted vehicles.

The survey showed that approximately 67 percent of the in-use vehicles in California are within manufacturer's specifications for engine timing, idle rpm, and other engine parameters.

Data from the surveillance tests are used by Air Resources Board to determine the relative contribution of motor vehicles to overall air pollution, and the additional

controls needed. The surveillance program also helps in setting the emissions standards used by the California Highway Patrol at roadside inspection stations. The mobile units are currently operating at the Department of Motor Vehicle offices in Montebello and Hollywood, where motorists may take their cars for free emissions tests.

## Bombers Need Friends

The City of Seaside, in cooperation with the Seaside Bombers Baseball Team, is soliciting contributions for the sponsorship of the Bombers. The Bombers are fine representatives of our City, but without your help they will cease to exist.

Your contributions will go towards the purchase of uniforms, equipment, and league entry fees. These contributions are tax deductible and will of course be duly recognized.

## Some Opportunities In Foreign Service Offered

Foreign service opportunities for minorities, women, and others with experience or training in five major functional fields are offered by the U. S. State Department and the U. S. Information Agency, according to Rep. Yvonne B. Burke (D-37th District, Los Angeles).

The Congresswoman said that applications are now being accepted by the State Department. The deadline is October 31, and the examination will be given December 7, 1974.

Applications and information may be obtained from the Board of Examiners for the Foreign Service, Rosslyn Station, Box 9317, Arlington, Va. 22209. All applicants must be American citizens at least 21 years of age as of the date of the examination.

Candidates need not be college graduates, but they should have training or experience in administrative, consular, commercial-economic, political, or cultural-informational.

Employment is based on a competitive examination system in four stages: written, oral, medical and background investigation, and final certification of appointment from a register of all qualified candidates.

Rep. Burke said that special emphasis is again being placed on recruiting women.

members of minority groups, and candidates with a talent for administrative and commercial-economic work. The USIA is particularly interested in attracting about 1,000 were examined candidates with training or orally.

## Chairman Announced

Senator H. L. "Bill" Richardson, Republican candidate for U.S. Senator, recently announced the selection of his Monterey-San Benito County Chairman. It will be very comforting to be with the knowledge that these two counties will be in his hands.

"I am honored to be able to volunteer any time for the election of Bill Richardson," said Seastrand. "His honesty and dedication to public service is such that all residents of the San Benito-Monterey area can support him and know that they can be certain of honest representation in the U.S. Senate. I pledge to be an active County Chairman and concentrate my efforts to the election of Bill Richardson."

Mr. Seastrand is a Stockbroker with Dean Whittier & Company. He is a member of the Elks and is on the Board of Directors of the Salinas Community Chest. Seastrand makes his home in Salinas with his wife Andre and two children, Curt and Heidi.

In this 1974 Review Issue, we, the organizers, wish to recommend the MIDWAY ENGINE REBUILDERS to all our readers without hesitation.

## Kalso Earth Shoe

When you shop for footwear, you want to find shoes that fit more than just your feet. Your shoes should fit the way you live, the way you look, the way you act and the way you think.

One of the nicest ways to find elegant new shoes with soles in the form of a healthy footprint in soft earth which returns the body to a natural position, relieving back-ache, inducing a more graceful walk is to slip into the shoes, sandals, sabots and boots on display at KALSO EARTH SHOE.

Here you will find friendly, helpful personnel who always do their best to show you the kind of footwear that you want for today's look and feel.

So stop in at KALSO EARTH SHOE the next time you're in Carmel. They are located at Pantiles Court (upstairs) on Dolores between 5th and 6th, phone 624-9584.

We, the editors of this 1974 Review, suggest that you make KALSO EARTH SHOE headquarters for shoes, sandals, sabots, boots and white nurses shoes.

## Pagano's Restaurant

PAGANO'S RESTAURANT, located at 1211 Fremont in Seaside, phone 394-1700 is one of the most original places in the entire area. When Mr. Pagano, the owner, opened its doors, it was with the idea that an Italian restaurant should combine friendly service with the proper atmosphere. The popularity of PAGANO'S RESTAURANT has proven the value of this theory.

Here the service is cordial and quick. Specializing in authentic Italian foods, the menu also features your standard favorites, along with a selection of your favorite beer or wine. Dinners here will please the palates of the most particular.

If you're in the mood for a trip to Italy and find you don't have quite enough cash for a cruise, take a "dinner vacation" instead to PAGANO'S RESTAURANT. You'll be greeted with the same warmth and will enjoy the finest in cuisine.

This 1974 Review and the editors pause not a moment in giving our complete endorsement of PAGANO'S RESTAURANT in Seaside.

## AFDC Drops 66,000 People

The number of recipients of aid to families with dependent children (AFDC) -- the Nation's largest cash assistance welfare program -- dropped in June by 66,000 persons, for a new total recipient population of 10,755,000, according to

preliminary statistics released today by HEW Secretary Caspar W. Weinberger. This is the 10th monthly decline since March 1973, when the AFDC rolls peaked at 11,156,000 recipients, some 401,000 higher than the preliminary

June 1974 results.

In previous declines, AFDC figures for May were down 75,000 from April (10,896,000), which, in turn, were down 20,000 from March (10,916,000).

James S. Dwight, Jr., Administrator of HEW's

Social and Rehabilitation Service, noted that the decline in the rolls is due, at least in part, to the constructive effort to eliminate errors in eligibility and payments by State and local welfare agencies. The reduction of error is permitting many

States to raise payments without adding to taxpayer burdens, thus responding to the pressures of inflation. (Forty-seven States increased their average monthly payment to recipients from May 1973 to May 1974.)

AFDC payments in June 1974 totalled \$633 million as contrasted with \$604 million in March 1973 when the rolls peaked. June payments were up \$1.4 million over May 1974. Detailed statistics were released by SRS for May

## Del Monte Aviation Inc.

Walt Stewart—Manager

In the field of technological advance, certainly aviation must be on top of the list. In its short, but eventful history, flying is now considered an everyday way of life.

Businessmen and private individuals alike now enjoy the expedience and pleasure of flying both on a business and recreational basis.

The people to see are at DEL MONTE AVIATION INC., at Monterey Peninsula Airport, phone 373-4151. Here you will find qualified men capable of discussing your flying desires

whether it be for the many advantages in business or for private recreation. They are dealers for the famous CESSNA aircraft, known as leaders in aviation.

If you need to go to a distant city and wish to return the same day why not charter a

plane. When you figure the time saved, the price of hotel accommodations, if they are available, and other expenses involved in a trip away from home; you can many times actually save money as well as time, by chartering a plane. Call them the next time you plan an out of town trip.

Whether you are considering purchasing or renting an aircraft, learning to fly, or need service on your present craft, this concern is fully qualified to be of expert assistance.

The composers of this 1974 Review commend the community-minded attitude that DEL MONTE AVIATION INC. holds first in mind and suggest to our readers that they stop in anytime for information from this well respected aircraft dealer.

## Salinas Kawasaki

Jim Chisum—Owner

Freedom, fun and excitement can be accurately defined as a ride on a new KAWASAKI. More and more people, both young and old, are finding this to be true today.

SALINAS KAWASAKI invites you to come in and take a ride, you'll become a believer too.

SALINAS KAWASAKI located at 50 West Market in Salinas, phone 424-9611 is your authorized dealer for KAWASAKI, MAICO, DKW, and INDIAN motorcycles.

On the street or on the track these muscle machines can hold their own. They cost more pennies a day to operate and yet perform well enough to satisfy even a professional cyclist. If your budget can't stand the strain of a new bike, look over

their fine selection of used machines. All of these bikes have been serviced and checked by a first-class mechanic and are sure to give you many, many miles of pleasure.

Sometime or other everything on wheels requires an adjustment or repair, so if your machine should require a tune-up or repair, bring it in to SALINAS KAWASAKI. They'll have you back on the street in no time and without a huge repair bill.

We, the editors of this 1974 Review recommend that everyone from "Little Old Ladies" to "Moto-Cross" competition drivers, stop in at SALINAS KAWASAKI and rediscover the wonderful world of wheels.

## Stan's

## Custom Upholstery

Stanley Molepszy—Owner

For fine upholstery and furniture repairing see STAN'S CUSTOM UPHOLSTERY, located at 346 San Juan Grade Road in Salinas, phone 449-6487. This firm has restored many valuable pieces of furniture to their original beauty and usefulness.

In the line of general upholstery and furniture repairing they render a distinctly superior service. Many people do not realize that the furniture they now have may be of better construction than most new

furniture. Upholstering those pieces is the best investment to be made.

They have a complete line of upholstery fabrics to suit your choice. You can match any color scheme you desire at this upholstery shop.

In this 1974 Review, we, the organizers, wish to commend STAN'S CUSTOM UPHOLSTERY upon the quality of their work and we recommend them to the people of this area.

## Valley National Bank

In reviewing the various leaders of this trade area, we are proud to include the VALLEY NATIONAL BANK located at 416 S. Main in Salinas phone 424-1771. In Watsonville, Prunedale, Freedom, at 210 17th in Pacific Grove, phone 373-1653, and at 35 Bonifacio Plaza in Monterey phone 649-1800.

## Mid-Town Construction Co.

John W. Glass—Owner

There comes a time in every married couple's life when they decide that they no longer want to live in a small apartment or pay rent to someone without getting any return on their money.

When that time comes and they start looking into buying a home, they often realize that the pre-built homes available are not just what they have been looking for. The kitchen may be in the wrong place; the bedrooms too small; there is no garage; or the homes are in the wrong neighborhood.

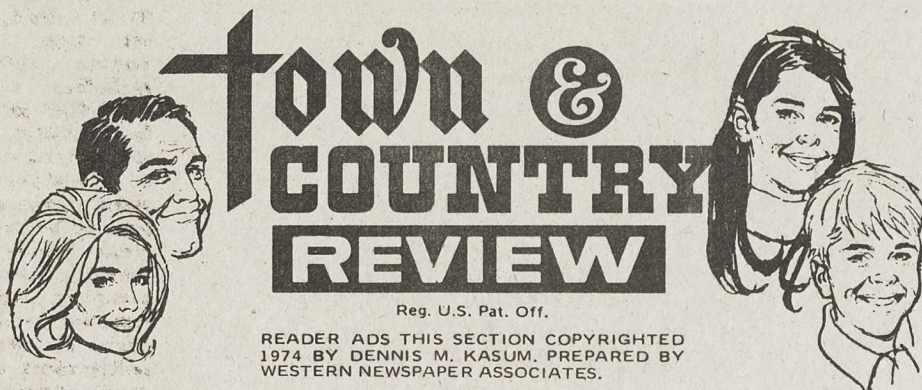

Many people have felt that building a home of their own to their own plan would be too involved and too costly; and have compromised on what they really want.

If this is your situation then you really do not have to compromise. MID-TOWN CONSTRUCTION CO., located in Seaside, phone 394-5682, is one of the finest custom home

builders in this area. They know the home building business completely and can help you with the entire project: from the discussion of what you want in your home - through the drawing of the plans - assistance in arranging financing - into the actual construction. Some of the finest custom built homes in this area have been built by MID-TOWN CONSTRUCTION CO., and you can rest assured that when you contact this firm you will be treated fairly and your home will be what you expected it to be in every detail.

They also build custom commercial structures and provide the finest in drafting service.

We, the editors of this 1974 Review would like to take this opportunity to highly recommend the MID-TOWN CONSTRUCTION CO. to anyone interested in building today.
